

Samreen Hasan Zaidi

Lead Frontend Developer — React & TypeScript Specialist, Full-Stack & AI-Powered UI

er.samreenzaidi@gmail.com • +971 588 726 757 • Dubai, UAE • [linkedin.com/in/samreen-zaidi](https://www.linkedin.com/in/samreen-zaidi) • github.com/buildwithsamreen

SUMMARY

Lead Frontend Developer with 12+ years building high-traffic eCommerce and enterprise UIs in React, TypeScript, and Node.js, on platforms including Salesforce Commerce Cloud and Shopify. Ships full-stack, AI-powered features — including a visual-search chatbot and a predictive demand-forecasting tool — with clean RESTful and MongoDB-backed integrations, alongside WCAG-accessible interface design. Leads Agile teams of 5+ engineers from architecture through production release.

CORE SKILLS

Frontend	React, Redux, TypeScript, JavaScript (ES6+), HTML5, CSS3/SCSS, Bootstrap
Backend	Node.js, Python, RESTful APIs, API Integration
Databases	MongoDB
Platforms	Salesforce Commerce Cloud, Shopify
Tools & Practices	Git, GitHub, Jira, Agile/Scrum, CI/CD, Microservices, Performance Optimization, Accessibility (WCAG), Responsive Design
AI & Automation	AI-Powered Features, Chatbots, Predictive Analytics

EXPERIENCE

GMG

Lead Frontend Developer May 2024 – Present

Own frontend and full-stack delivery for GMG's retail platforms — spanning performance optimization, backend integration, and AI-powered feature delivery.

- **Sun & Sand Sports & NIKE** — Lead end-to-end frontend development and backend API integration for the eCommerce platform, improving page load speed by 30-40% and lifting engagement/conversion, while directing Agile delivery across a cross-functional team of 5+ developers. Building a proof-of-concept AI chatbot enabling image-based visual search, cutting manual product-search effort by ~40%.
- **Group Loyalty Program** — Develop a full-stack (React, Node.js, MongoDB) admin dashboard managing brand loyalty campaigns and offers, owning design, implementation, and delivery.
- **Demand Forecasting (Ordering Tool)** — Engineer an AI-driven demand forecasting and ordering tool (Python, TypeScript, MongoDB) applying predictive data pipelines to optimize inventory planning.

Dentsu

Lead Frontend Developer Apr 2022 – Dec 2023

Led frontend development for enterprise clients, integrating backend services and owning code quality through review and release management.

- **George (ASDA)** — Spearheaded UI development integrated with backend services, improving application performance by 25%; conducted code reviews and directed CI/CD-driven release processes.
- **Prescription Lab (Webedia)** — Built a shared frontend-backend collaboration workflow and informed microservices-aligned architecture decisions, reducing scope-related delays.

Publicis Sapient

Senior Frontend Developer

May 2019 – Apr 2022

Built responsive, backend-integrated applications for enterprise-scale platforms, owning development from implementation through testing and deployment.

- **Kate Spade & COACH (Tapestry)** — Mentored a junior developer, integrating frontend with backend APIs and ensuring WCAG accessibility compliance.
- **Lightnest & CIAM (Nestlé)** — Owned the project from concept through launch, handling JavaScript implementation, backend data flow, and full testing cycles.

Tata Consultancy Services

Frontend Developer

Mar 2014 – May 2019

Built and maintained enterprise web applications, integrating frontend with backend APIs across multiple environments.

- **Citibank Projects (Singapore, North America)** — Developed responsive pages from mockups, integrating with Citibank's sandbox environment and backend APIs across both markets.
- **SIP Trunking (TDC) & Field Force (Fulton Hogan)** — Built cross-browser compatible UIs with AngularJS and React, reducing defect counts and optimizing rendering performance.

EDUCATION

GBTU — Bachelor of Technology (B.Tech), Computer Science

CERTIFICATIONS & AWARDS

One Million Prompters — Jul 2026	Star of the Month Award
Generative AI Mastermind — Aug 2025	On-the-Spot Award
